How did you hear about the TLAC Foster Program? _____

Foster Home Information

Human Household Members	Age	How will they be involved in care?

Animal Household Members	Age	Breed	Sex	Date of Rabies Vaccination

Your Vet Clinic's Name: _____ Phone # _____

In order to be approved to foster for TLAC, all animals in the home must be vaccinated against rabies. If a veterinarian other than the one listed above vaccinated your pet(s) against rabies, please attach the rabies certificate for your pet(s). Please consult your veterinarian about fostering – your veterinarian may recommend additional vaccinations to protect your pets.

My home is:		My home is:	
<input type="checkbox"/>	an apartment	<input type="checkbox"/>	owned by me
<input type="checkbox"/>	a condo or townhome	<input type="checkbox"/>	owned by another family member
<input type="checkbox"/>	a duplex	<input type="checkbox"/>	rented
<input type="checkbox"/>	a house	<input type="checkbox"/>	If rented, please provide landlord information
<input type="checkbox"/>	mobile home	<input type="checkbox"/>	

Describe where you will be keeping the foster animals, including how you would separate them from your own animals, if applicable:

Approximately how long, on an average day, will foster animals be left alone in the home?
(Without people to monitor eating, behavior and elimination)

Previous experience with companion animals :

Are you currently or have you previously fostered for any other humane organization? If so, which one and may I contact them as a reference?

My household is able to foster: (check all that apply)

Cats and Kittens		Dogs and Puppies

<input type="checkbox"/>	Needing Behavioral Modification	<input type="checkbox"/>	Needing Behavioral Modification

Anything else you would like to share about yourself or your experience with animals?

PLEASE READ THE FOLLOWING CAREFULLY:

The Town Lake Animal Center (TLAC) will determine the criteria for fostering, deciding which animals will be fostered, and appoint Foster Providers from a pre-approved list. Approved Foster Providers may always refuse a specific request for any reason. TLAC staff will inform Foster Provider of any medical treatments to be given, the expected length of the foster care period, the objectives of the care (restoring to health, rearing to adoptive age, socializing, etc.), and any other expectations TLAC has. Foster Providers will be expected to keep the animal secure, return it to TLAC when requested to do so; and not promise the animal to anyone, or imply the authority to approve a potential adoption. Foster Providers will return the animal to TLAC with helpful information for potential adopters and supply pictures of fosters for TLAC website if possible.

TLAC may euthanize some animals not responding to treatment or if there are signs of aggression problems that cannot be corrected. It is possible that an animal you have cared for may have to be euthanized if this occurs. Occasionally animals in foster care expire unexpectedly while still in foster care. It is important that Foster Providers feel able to cope with these possibilities.

There is a risk that foster animals are incubating contagious diseases that could infect animals or humans in the home of the Foster Provider. Any illness or disease contracted by resident pets or humans is the sole responsibility of the Foster Provider.

TLAC will retain ownership of all animals in foster care, and will make all decisions regarding the adoption or euthanasia of the animals fostered.

I have read and fully understand the statements described above.
